WORK TO BE DONE

**PUBLIC INSTITUTIONS NEED TO INTEGRATE THEIR PLANNING
AND INVESTMENT IN A BETTER WAY**

**OUR WORK IS TO COORDINATE THIS COLLABORATION AND
OFFER A TOOL THAT IS ABLE TO MAKE THIS LABOUR EASY AND
UNDERSTANDABLE FOR EVERY PERSON**

X

THE IMPORTANCE

Authorities, planners, and citizens need to visualize accurate thematic models of our Region.

We needed to decide what information is strategical for us. Why? Because different institutions generate big amounts of different kind of information for different purposes and with different scales. We asked to selected institutions to assing a responsible whom is now a permanent part of a Regional Comission for the National Sistem of Territorial Information that is responsible this work in the Region, this comission is lead by the Regional Coordination, dependant of the Regional Government of Valparaíso.

WHAT WE WANT TO ACHIEVE

AND WE ARE **not** INTENDED TO ACHIEVE

There are similar tools like this in a good amount of public institution, but our distinctive element is that our Regional Government is a centralized institution, at regional scale, that can and must integrate and unify the work of the sectorial institutions. Doing this we can elaborate and display one or more strategic models, or "viewers" in the Geonodo platform.

A main goal is to increase the human capital, the knowledge, instaurated in every public institution. We encourage to every participant in the administration of Geonodo platform to be an active member, giving to our Regional Government the most fresh and integrated geospatial information, this will allow us to know "what's goin on" in our territory.

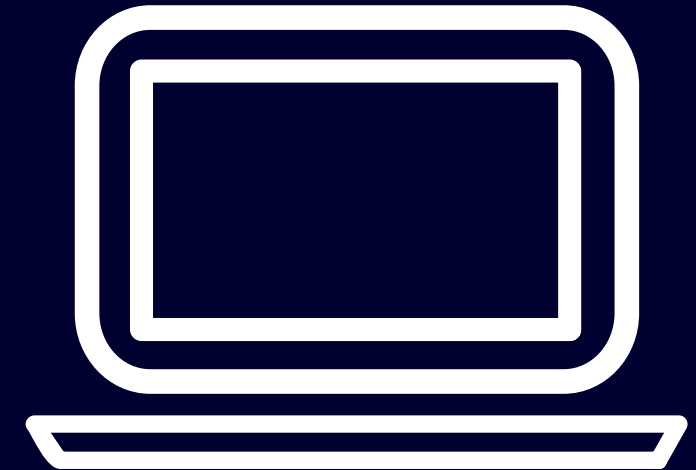

OUR WORK PLAN

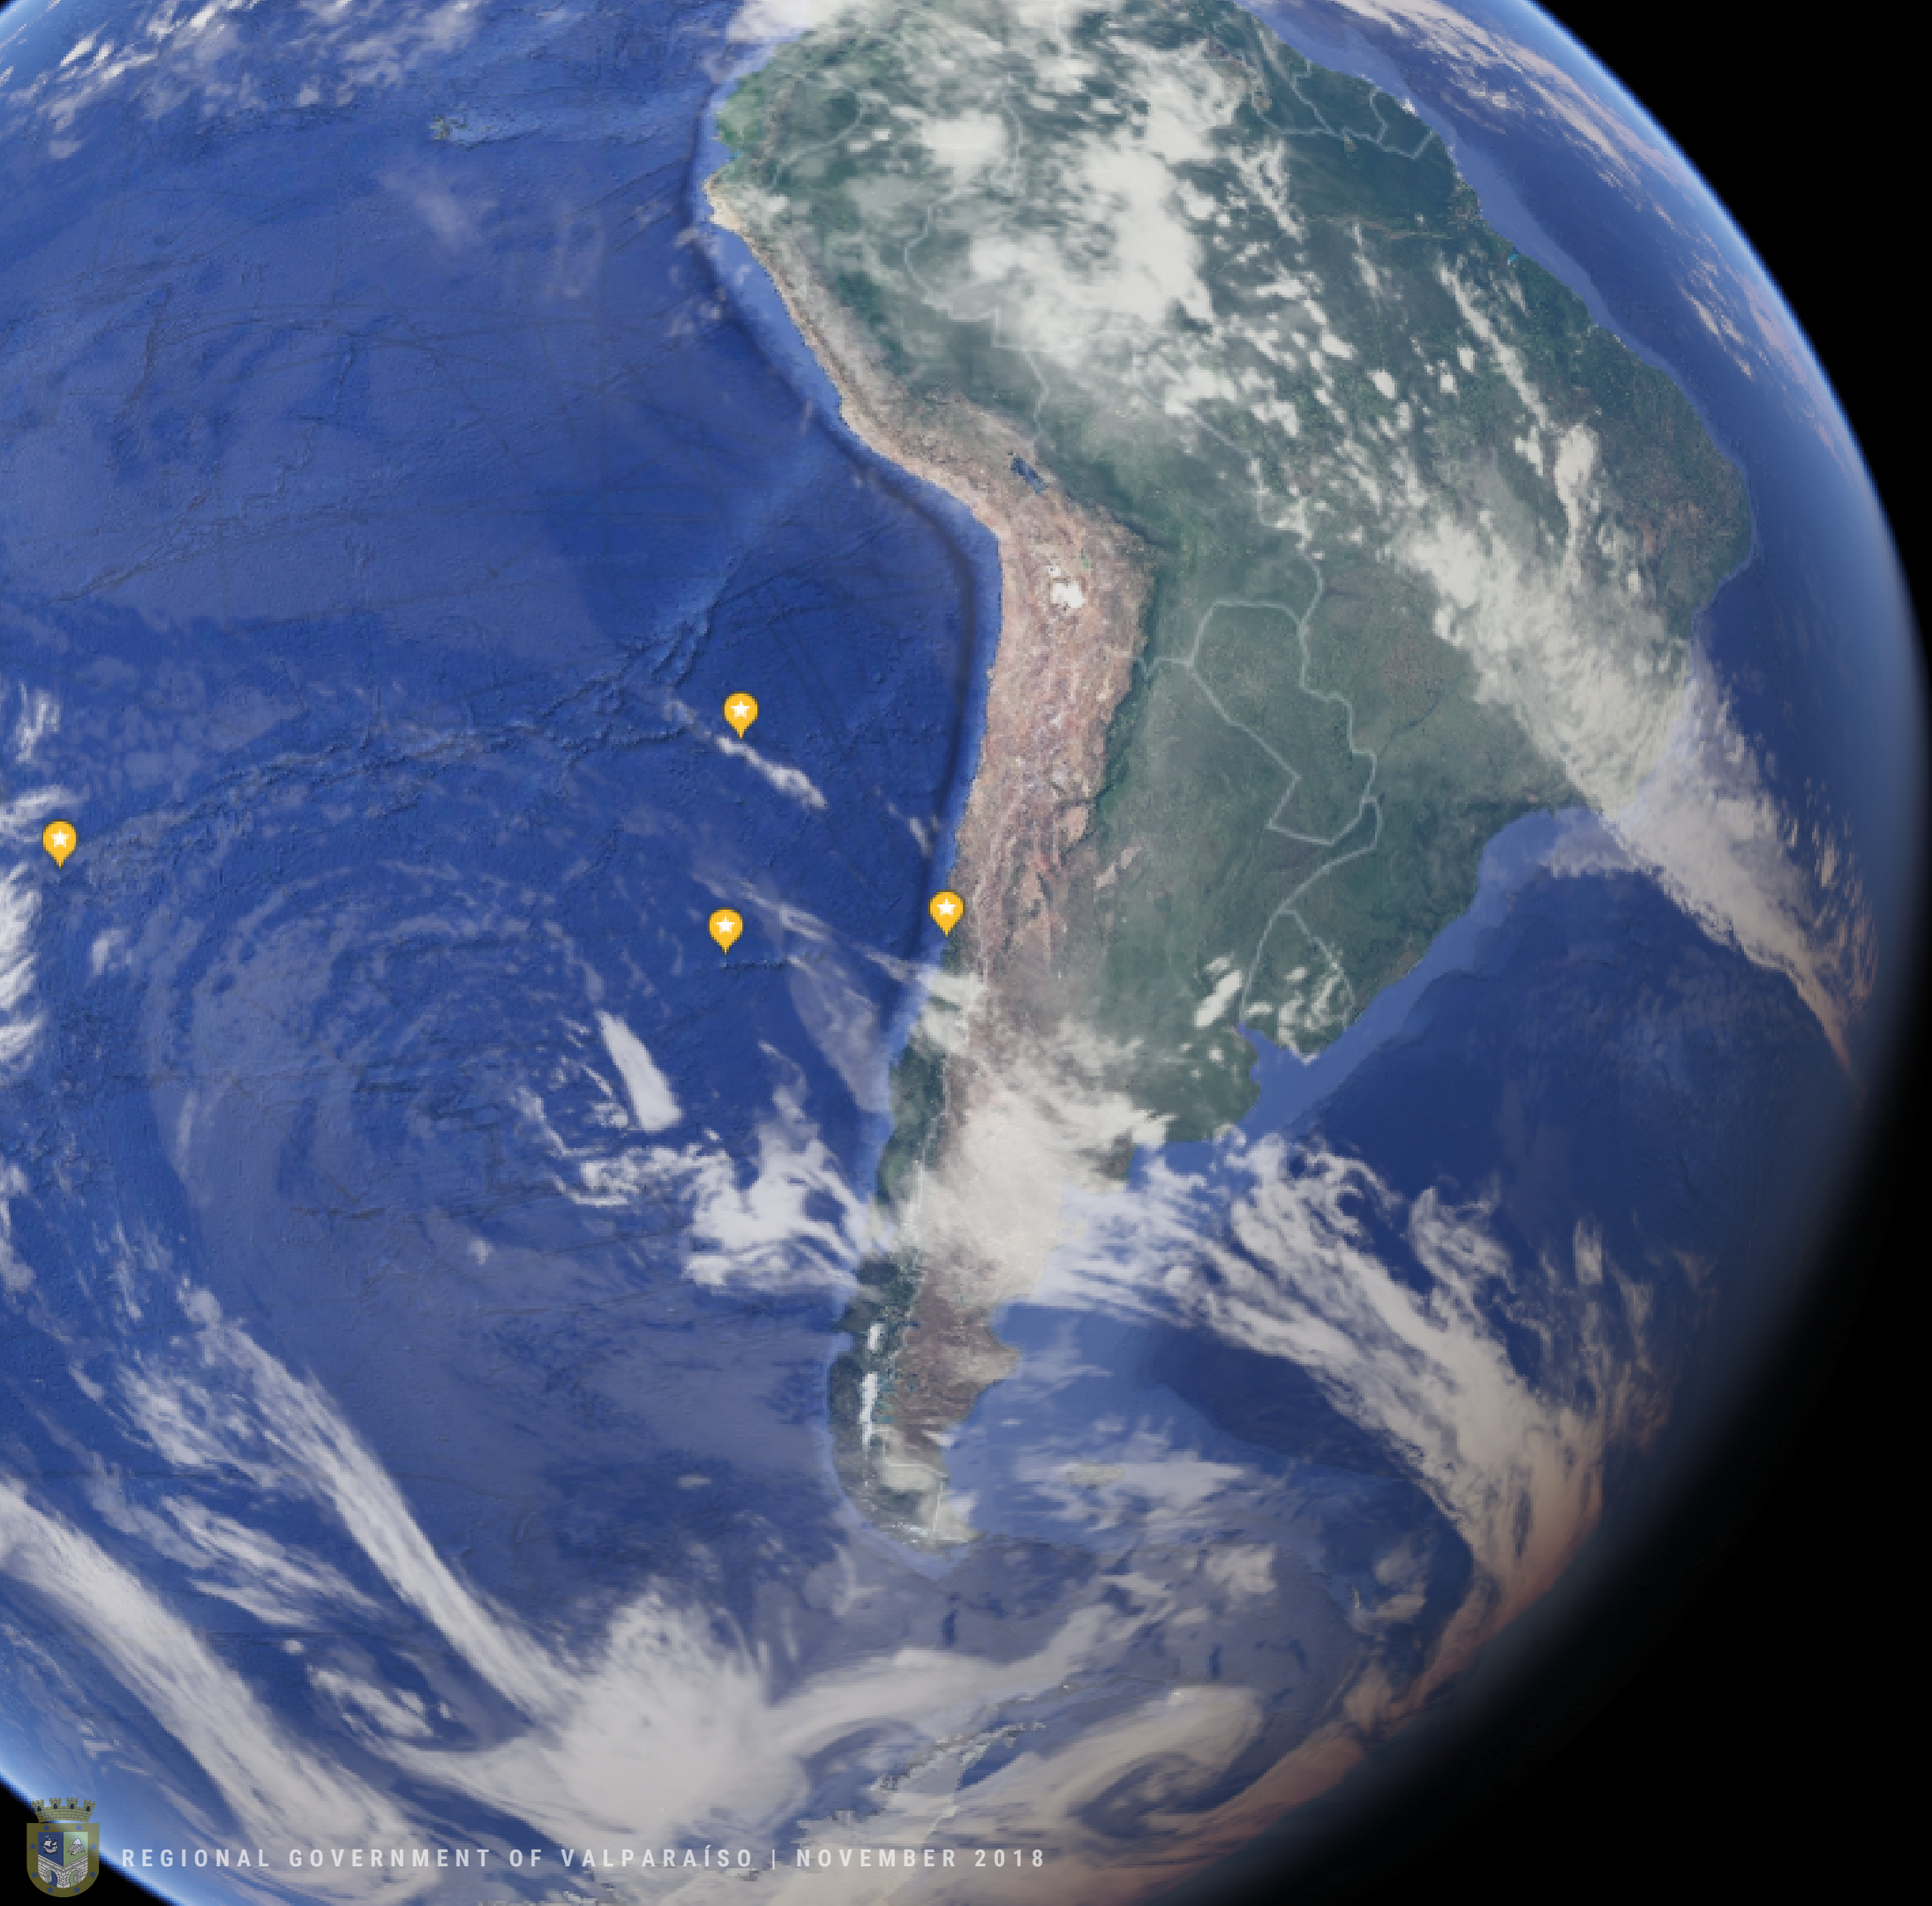

**Increase capabilities of
people working in public
institutions**

**Decide what's the primordial
information we need**

**Give access to the platform
and start uploading
information**

3 VIEWERS

OF GENERAL INTEREST INFORMATION

- 1 CONTINENTAL SECTION
- 2 ISLANDS

3 VIEWERS

OF STRATEGIC INFORMATION

- 1 REGIONAL MAP FOR THE REGIONAL COMMISSION OF TRANSPORT
- 1 REGIONAL MAP OF NATURAL HAZARDS AND RISKS
- 1 REGIONAL MAP FOR THE ELDERLY PEOPLE
